

NEW ORACLE BI LEARNING PATHS

Learning Paths: Oracle BI Analytics Applications

Learning Path Objectives

Oracle University and **Peak Indicators** are focused on ensuring that Oracle's customers and partners have the necessary skills and knowledge to successfully implement Oracle's Business Intelligence Applications. To that end the 2 organisations have collaborated in developing a suite of trainings which meet the needs of the technical and end user communities.

The training paths are summarised below:

Technical Training

Technical Training: Informatica & DAC

OBI Applications 7.9.6
Technical Bootcamp

Repository Development

Oracle BI 11g
Advanced Modeling

Oracle BI11g:
Advanced Boot camp

Reports, Dashboards & Publishing

Oracle BI 11g:
Advanced
Presentations

Oracle BI 11g:
Advanced Boot camp

Super User Training

Reports, Dashboards & Publishing

Oracle BI 11g R1:
Create Analyses
and Dashboards

Oracle BI 11g:
Advanced
Presentations

End User

BI Apps. Overview

Oracle Financial
Analytics Workshop

NEW ORACLE BI LEARNING PATHS

Training Course Title	Duration	Summary	Cost £ (per delegate)
OBI Applications 7.9.6 Technical Boot Camp	5 Days	This course allows developers and architects to gain valuable hands-on experience with all the key technical areas relevant to a BI Applications implementation including installation, executing and monitoring ETL, modeling the BI Repository, extending the solution with an additional "star-schema" and integration with Oracle E-Business Suite	£3665
Oracle BI 11g Advanced Boot Camp	5 Days	This training provides BI Developers and Architects with all the knowledge and "hands-on" experience needed to deliver a World-class OBIEE 11g implementation. First of all, delegates will spend 3 days learning the advanced concepts and key fundamentals behind the Oracle BI 11g Server and BI Repository (RPD), learning how to model a variety of complex data sources. Delegates will then move on to designing and building a sophisticated set of Interactive Reports and Dashboards against the data structures they have modeled.	£3665
Oracle BI 11g Advanced Modeling	4 Days	This training provides BI Developers and Architects with essential knowledge on the advanced concepts and key fundamentals behind the Oracle BI Server and BI Repository (RPD). With no fewer than 18 realistic "hands-on" lab sessions, Delegates will receive significant first-hand experience with sophisticated Modeling techniques enabling them to model complex data structures (including Star-Schema, Flat Structures, 3NF, Essbase Cubes, Ragged / Unbalanced Hierarchies)	£2932
Oracle BI 11g Advanced Presentations	4 Days	Delegates will learn "hands-on" how to design and build sophisticated Interactive Dashboards, Published Reports and Balanced Scorecards. Further sessions will cover advanced techniques for enhanced visualisations, interactions and integration	£2932
Oracle BI 11g R1: Create Analyses and Dashboards	4 Days	This training will provide your BI Developers, Report Builders and Business "Power Users" with all the skills needed to design and build sophisticated BI Dashboards and Reports catering for multiple Business areas, roles and responsibilities	£2932
Oracle Financial Analytics Seminar	2 Days	During this 'hands-on' workshops delegates will be introduced to the standard content available in Oracle's Financial Analytics applications. In addition delegates will understand the concepts of: security (report and data access); development of custom reports and dashboards; how to extend the applications to take into account additional data elements.	£1466

NEW ORACLE BI LEARNING PATHS

Learning Paths: Oracle BI Implementations

Learning Path Objectives

Oracle University and **Peak Indicators** are focused on ensuring that Oracle's customers and partners have the necessary skills and knowledge to successfully implement Oracle's Business Intelligence Foundation Suite (OBI EE). To that end the 2 organisations have collaborated in developing a suite of trainings which meet the needs of the technical and end user communities.

The training paths are summarised below:

Technical Training

Data Warehouse Design
and Concepts

Oracle Database:
Introduction to SQL

Oracle Database 11g:
Administration of
a Datawarehouse

Oracle Database
11g: Analytic SQL for
Data Warehousing

OBI EE Repository
Development

Oracle BI 11g
Advanced Modeling

Oracle BI 11g:
Advanced Boot camp

OBI EE Reports,
Dashboards &
Publishing

Oracle BI 11g:
Advanced
Presentations

Oracle BI 11g:
Advanced Boot camp

Super User Training

OBI reports,
Dashboards & Publishing

Oracle BI 11g R1:
Create Analyses
and Dashboards

Oracle BI 11g:
Advanced
Presentations

End User

OBI Overview

User Adoption
on Services

NEW ORACLE BI LEARNING PATHS

Training Course Title	Duration	Course Summary	Cost £ (per delegate)
Oracle Database: Introduction to SQL	5 Days	Understanding the basic concepts of relational databases ensure refined code by developers. This course covers creating indexes and constraints, and altering existing schema objects. Additionally, participants learn how to create and query external tables. In order to query and manipulate data within the database, to use the dictionary views to retrieve metadata and create reports about their schema objects, participants get to understand the advanced features of SQL. Some of the date-time functions available in the Oracle Database are also covered. This course also discusses how to use the regular expression support in SQL.	£2325
Oracle Database 11g: Administration of a Data warehouse	4 Days	Delegates learn about Oracle's Database partitioning architecture and how to identify the benefits of partitioning in addition to using parallel operations to reduce response time for data-intensive operations. Participants extract, transform, and load data into an Oracle Datawarehouse. Participants also use materialized views to improve the data warehouse performance and learn how query rewrites can improve performance. The usage of SQL Access Advisor to optimize the entire workload, tuning materialized views for fast refresh and query rewrite and also how to use the compression and resumable sessions features are discussed.	£ 1860
Oracle Database 11g: Analytic SQL for Data Warehousing	1 Day	In this course delegates use Analytic SQL to aggregate, analyze and report, and model data. Students learn to interpret the concept of a hierarchical query, create a tree-structured report, format hierarchical data, and exclude branches from the tree structure.	£460
Oracle BI 11g Advanced Boot Camp	5 Days	This training provides BI Developers and Architects with all the knowledge and "hands-on" experience needed to deliver a world-class OBIEE 11g implementation. First of all, delegates will spend 3 days learning the advanced concepts and key fundamentals behind the Oracle BI 11g Server and BI Repository (RPD), learning how to model a variety of complex data sources. Delegates will then move on to designing and building a sophisticated set of Interactive Reports and Dashboards against the data structures they have modeled.	£3665
Oracle BI 11g Advanced Modeling	4 Days	This training provides BI Developers and Architects with essential knowledge on the advanced concepts and key fundamentals behind the Oracle BI Server and BI Repository (RPD). With no fewer than 18 realistic "hands-on" lab sessions, Delegates will receive significant first-hand experience with sophisticated Modeling techniques enabling them to model complex data structures (including Star-Schema, Flat Structures, 3NF, Essbase Cubes, Ragged / Unbalanced Hierarchies)	£2932
Oracle BI 11g Advanced Presentations	4 Days	Delegates will learn "hands-on" how to design and build sophisticated Interactive Dashboards, Published Reports and Balanced Scorecards. Further sessions will cover advanced techniques for enhanced visualisations, interactions and integration.	£2932
Oracle BI 11g R1: Create Analyses and Dashboards	4 Days	This training will provide your BI Developers, Report Builders and Business "Power Users", with all the skills needed to design and build sophisticated BI Dashboards and Reports catering for multiple Business areas, roles and responsibilities	£2932
